

José Andrés Menchaca Medina

Cochabamba, Bolivia - +591 62650020 - [José Andrés Menchaca Medina | LinkedIn](#) - [4nddrs \(Andrés Menchaca\)](#) - [4nddrs.com](#)

Systems Engineer specializing in Python Backend and high-performance architecture. I build scalable APIs with a Linux-first mindset, orchestrating workflows via the Debian CLI to solve business challenges through clean, efficient code. Expert in technical documentation and knowledge management for distributed teams. Recently I achieved a perfect score (100/100) in my professional defense.

ENGINEERING EXPERIENCE & PROJECTS

- **Enterprise Equestrian ERP (backend-Country) | Python, FastAPI, Supabase, PostgreSQL**
Personal Research & Development | 2025 – 2026
 - Architected a scalable backend following Clean Architecture principles, integrating Supabase and PostgreSQL for complex enterprise data management.
 - Automated business logic and task scheduling using APScheduler, including real-time Telegram notification services.
 - Achievement: Awarded a perfect score of 100/100 for this engineering thesis project.
 - **AI-Driven Industrial Safety (eppCheck) | Python, YOLOv8, PyTorch, FastAPI**
University AI Project | 2025
 - Engineered a real-time PPE detection system using YOLOv8 and PyTorch, achieving high-accuracy inference for industrial safety compliance.
 - Developed an asynchronous notification pipeline via FastAPI for instant incident evidence capture and automated alerts.
 - **E-commerce & Private Marketplace (TIM SRL) | Python, FastAPI, PostgreSQL, React, Vite**
Freelance Project | 2026
 - Architected a commercial landing page and a secure, private marketplace for an industrial importer.
 - Implemented inventory management and client-specific access controls to streamline B2B operations.
 - **SNAG (Simple Network API Gopher) | Go, CLI, Homebrew, Scoop**
Open-Source Project | 2026
 - Developed a high-performance terminal-based API client distributed via Homebrew and Scoop.
 - Engineered a lightweight, keyboard-driven tool in **Go** for rapid network debugging and API testing.
-

EDUCATION & CERTIFICATIONS

- B.S. in Systems Engineering | Universidad Privada del Valle | 2022 – 2025
 - Honors: Graduated with a 100/100 Private Defense score.
 - English Professional Proficiency (B2) | UMSS | 2021
-

LANGUAGES

- Spanish: Native
 - English: Professional Working Proficiency (B2)
-

PROFESSIONAL ATTRIBUTES

- **Systems Thinking:** Ability to decompose complex business requirements into modular backend architecture.
- **Documentation-as-Code:** Committed to Markdown/Obsidian for system maintainability and team onboarding.
